Position Title: Lead Web Applications Developer

Position #: 00100400

Salary: $65,000+ per year/full-time, exempt (from FLSA overtime)/benefited position in the 3000 professional broadband

Location: Grand Forks, ND

Closing Date: Applications received by January 20, 2015 will be given first consideration. Open until filled.

Description:
The Lead Web Applications Developer is part of the Enterprise Services Web development team tasked with delivering enterprise level applications for the University system and its constituents. This position is responsible for providing leadership and management of the Web Applications team in the design, development, and maintenance of Web and mobile applications and sites, internal applications, and database information systems. In addition, the Lead Developer plays a key role in mentoring other developers, project management, and strategic planning. This position is located in Grand Forks, ND.

Minimum Qualifications:

- Bachelor's degree in a job related technical discipline. Relevant experience may substitute for the degree requirement on a year-for-year basis.
- 5-8 years of technical experience working with Web applications, Web design, enterprise applications and relational databases.
- Three years of experience in requirement gathering, project scoping, and project management.
- 2-3 years of experience in a management or supervisory capacity.
- Strong analytical and technical skills with thorough knowledge of Web technologies and best practices.
- Strong communication with technical and non-technical users and solid organizational skills.
- Ability to think creatively and make sound decisions.

Preferred Qualifications:

- Experience developing using ColdFusion, PHP, JavaScript, Python, Java.
- Experience with SQL, jQuery, jQuery UI and Ajax.
- Experience with three-tier development (web servers, application servers, database servers), server configuration, and networking fundamentals.
- Understanding of semantic HTML code, user-centered design, usability and accessibility.
- Ability to utilize source control systems (i.e. SVN, Git) and ticket tracking / project management software (ServiceNow).
To Apply: Applicants should submit 1). a cover letter specifically addressing the advertised qualifications 2). a current resume and 3). the names and contact information (including telephone numbers and e-mail address) of three professional references, either electronically (preferred) to jane.grinde@ndus.edu or by mail to
