**GENERAL
INFORMATION**

INTRODUCTION

This report provides information on degree and certificate programs offered and student program completions for fiscal year 2005-2006 in North Dakota's public and private postsecondary educational institutions.

Institutional programs are coded in accordance with the Classification of Instructional Programs (CIP Code) system provided by the National Center for Education Statistics branch of the United States Department of Education. To assist readers, programs have been organized by level of offering: certificate, diploma, associate, bachelor, and graduate. The registrars at each institution provided the information included in the book.

Individuals desiring additional program information about vocational-technical programs should check the directory published by the Department of Career and Technical Education. Students desiring information about institutional tuition, fees, room and board rates, and financial aid should contact the institution's admissions office directly. Information on North Dakota University System campuses is available through the System web site: <http://www.ndus.edu>

DEFINITIONS

Program Completed

A completed program is one in which the individual has met all of the requirements to obtain a degree or certificate (16 or more credit hours at the undergraduate level or 9 or more credit hours at the graduate level) in that field of study. This number may vary slightly from other publications that report degrees granted since one person may complete two programs yet receive only one degree. This publication reports all programs completed. Information on certificates of completion (less than 16 credit hours at the undergraduate level or 9 hours at the graduate level, or non-credit activities) is not included in this report.

Education Codes

CIP Codes with a "13" prefix indicate a program in education. Most information on education programs can be found in the "13" code, although on some campuses, teacher education majors may earn their degree in a specific discipline, not education.

In the *Programs Offered by CIP Code* section, an "X" indicates that program is offered. In the *Student Program Completions* sections, a "0" indicates the program is offered, but had no graduates that year.

Delivery Method

Multiple delivery options are available through NDUS campuses. A list of delivery options and their codes follows:

C=Correspondence

I=IVN

O=Online

OC=Off-Campus/In Person

T=Traditional

V=Videotape

Courses/programs may be offered by more than one delivery method. If a course/program is offered through more than one delivery method, it will be designated by delivery code, separated by a comma. For example, "O,T" means the course is offered both online and in the traditional classroom.

Some courses/programs are offered through a combination of delivery methods. These courses/programs will be designated by delivery codes in parenthesis. For example, "(OC,O)" means the course/program is offered through a combination of off-campus, in-person and online instruction.
