ServiceOne Program – November 2021 Highlights

- **Organizational Change Management Workshops**
  - 2 Hour Workshop delivered to 17 ESC and AC members - Campus IT & CTS
  - Conducted a 2 Day in-depth OCM Workshop for 13 CTS employees
    - OCM Practitioners have started analyzing the people side of the Problem Management Standard proposal

- **Executive Steering Committee Activity**
  - Governance Charter approved
  - Organizational Change Management Standard approved
  - Problem Management Standard approved
  - Relationship Management – Phase 1 Standard approved

- **Advisory Council Updates**
  - First Advisory Council meeting held on 11/8

- **Practice Owner/Core Team Updates**
  - ServiceOne promotional video completed
  - Continued work on repository for Standards, Processes, and Work Instructions
  - Completed six additional Focus Groups sessions relating to Service Desk and Incident Management – 49 Campus IT and customers participated
  - A marketing intern was hired to help with ServiceOne communications
  - Started work on a monthly progress report dashboard

### Program Component: Organizational Change Management

**Description**
Program to develop, implement and sustain OCM methodology in CTS for people change related projects. OCM ensures that changes in an organization are smoothly and successfully adopted and sustained by end users, so that the forecasted organizational benefits of the change are achieved.

**Risks**
- If staff are overloaded with projects and daily work, then milestones may be missed.
- If staff need to use vacation before December 31, then milestones may be missed.

**Issues**
- None at this time.

### In-Progress Milestone Review

# Program Component: Relationship Management – Phase 1

**Description**

Relationship Management’s purpose is to establish and nurture the links between the organization and its stakeholders at strategic and tactical levels. It includes the identification, analysis, monitoring, and continual improvement of relationships with and between stakeholders.

**Risks**

- If there is a lot of feedback that comes from Town Halls, then it can take more work effort on CTS Leadership team to follow up.
- If feedback comes back very specific or contains unrealistic requests, then CTS can have a harder time with follow up to each campus.
- If feedback is voiced as unrealistic requests, then it can affect future town hall attendance and negatively impact CTS, Town Hall and ServiceOne reputation.

**Issues**

- None at this time.

</table>
**Program Component: Problem Management**

**Description**
Problem Management’s purpose is to reduce the likelihood and impact of incidents by identifying actual and potential causes of incidents and managing workarounds and known errors.

**Risks**
- None at this time.

**Issues**
- No clear understanding of differences between incidents and problems

</table>
### Program Component: Service Desk

**Description**
Program to develop, implement and sustain Service Desk methodology in CTS improving customer service and ensuring incidents and services requests are properly prioritized and categorized to provide accurate reporting.

**Risks**
- An important part of the Service Desk Practice is to handle user incidents and service requests. But we don’t have a service request practice in scope. The Service Desk might not meet our goals if we don’t address service requests.

**Issues**
- The need to develop the line between the Service Desk Practice and the Incident Management Practice – **Mitigation**: Service Desk and Incident Management owners are attending each other’s meetings.

---

<td></td>
</tr>
</tbody>
</table>
Program Component: Incident Management

Description
Program to develop, implement and sustain Incident Management methodology to minimize the negative impact of incidents by restoring “normal” service operation as quickly as possible.

Risks
• If staff are overloaded with projects and daily work and if staff need to take annual leave in December, then milestones may be missed.

Issues
• Need to establish boundaries and relationships between Incident Management and Problem and Service Desk Management
